DIRECTIONS TO THE NORTHERN KENTUCKY CONVENTION CENTER

The Northern Kentucky Convention Center developed the following procedures to assist exhibitors with the load-in and load-out of this facility. The Center has limited dock space, so it is most important that these guidelines be followed.

COMMON CARRIER SHIPMENTS

The Center does not accept shipments from individual exhibitors due to limited storage and dock space. Please direct all materials to the official show drayage company, this will ensure your shipment is not turned away and will arrive on time.

MOVE-IN

All Move-Ins take place at the rear of the building (on the west side) on the Center's 3 loading docks. Large shows will require that exhibitors cue up along RiverCenter Blvd. facing west to east. (Refer to map). We ask that if you have large displays, plan with the show manager to arrive early. (Forklift may be hired and/or arranged in advance through the Center). Once you have unloaded and taken your items to your booth, you are required to move your vehicle to area parking.

Kentucky Board of Health Requirements

To adhere to the guidelines, set forth by the Kentucky Board of Health for all vendors wishing to distribute food and beverage samples, the following items will need to be provided/purchased by the vendors:

Operational Requirements for Temporary Food Service Establishments

Basic requirements (requirements that must be met before a temporary food service permit can be issued):

1. Adequate supply of clean water available to allow for food preparation, hand washing and utensil washing/sanitizing.
2. Hand wash station provided consisting of a hand wash sink with running water or a container of water with a spigot type valve for dispensing water and a bucket or basin below to catch wastewater with soap and paper towels. Hands of food service workers must be thoroughly washed and rinsed between tasks especially after using the restroom, handling trash/garbage, handling raw/uncooked foods and prior to handling cooked/ready-to-eat items. Similarly, disposable gloves when used for handling food must be changed between tasks such as after handling raw/uncooked foods and prior to handling cooked/ready-to-eat items.
3. Utensil sanitizing station provided consisting of a three-compartment sink with running water or of three buckets or basins able to be set-up and used for washing, rinsing, and sanitizing utensils. Water and dish detergent is to be used in the first container for washing utensils, clean water is to be used in the second container for rinsing them and a sanitizing solution using an approved sanitizer at the proper concentration is to be used in the third container for sanitizing them. A supply of the dish detergent and the sanitizing chemical provided for set-up of the sanitizing station.
4. Animal and insect exclusion measures in place to minimize the potential for contamination of foods by these. Exclusion measures typically consist of a fully enclosed booth, a fully screened booth or a large fan or fans positioned to blow air across areas where insects are most likely to alight on food items or food service equipment. The fan(s) must be large enough to be effective in creating an air flow sufficient to deter insects from alighting. A large box fan or pedestal fan is generally acceptable.
5. Equipment provided for maintaining potentially hazardous foods (foods requiring refrigeration such as meat, dairy, egg and cooked vegetable products) at safe temperatures such as refrigerators, freezers, coolers with ice and/or warmer cabinets. Potentially hazardous foods maintained at temperatures below 45 degrees Fahrenheit or above 140 degrees Fahrenheit.
6. Conveniently located, approved restroom facilities available.

Additional Considerations:

1. Food items offered for sale must be from an approved source. Receipts and invoices may be required to verify the source of any foods offered to the public or their ingredients. Foods prepared in unapproved facilities such as a kitchen in a private residence are prohibited.
2. Wiping cloths while being used must be kept clean and sanitized using an approved sanitizing solution. Storage of wiping cloths in the sanitizing solution between uses is required.
3. Test papers will be required for testing of sanitizer concentration in the sanitizing rinse of the utensil sanitizing station and in wiping cloth storage containers.
4. Handling of ready-to-eat foods must be minimized by use of utensils, disposable gloves, deli papers, etc.
5. Foods must be heated rapidly to required cooking temperatures using equipment designed for the purpose prior to being held above 140° Fahrenheit for long term hot storage.
6. Appropriate thermometers must be provided for monitoring food and food storage equipment temperatures.
7. Bulk processing of potentially hazardous foods at temporary sites is prohibited.
8. Only menu items requiring limited on-site preparation regarding cutting, assembly and cooking will be allowed.
9. Food handlers must practice good hygiene. Clothing and aprons must be clean. Hair restraints must be provided.
10. Trash/garbage containers appropriate to the situation with tight-fitting lids must be provided. Refuse must be properly contained so as not to attract insects, rodents, birds, or other vermin.
11. Each exhibitor can purchase the items required for a sanitation station from Centerplate at the Northern Kentucky Convention Center. Pricing is as follows:

COMPLETE SANITATION STATION:	Refer to price list for prevailing rate
10 oz. Sanitizer	Centerplate will provide directions to each exhibitor. Exhibitors are responsible for maintaining the Sanitation Station throughout the show.
